

Audio/Visual (A/V) Team

Report to the 1U Annual Congregational Meeting – May 19, 2019

Respectfully submitted by John Brockman

Challenges:

Loss of Charlie Behrens was significant, however, the Team has taken this loss in stride, and we've seen an increase in volunteers stepping up.

Sanctuary sound continues to be a challenge until we re-visit the discovery phase of required acoustic absorption treatment and a training program for audio volunteers that focuses attention on addressing sound issues that present based on different speaker voices and different musical styles requiring a more advanced knowledge and volunteer motivation to learn more about sound control in the sanctuary.

Opportunities/Positives:

We have two new volunteers that bring a wealth of knowledge and experience that we look forward to working with to meet our challenges.
